Resolving Software Issues

- Adjust the download icon to fit the page size on mobile.
- Fix the Training and Development Center logo that was not appearing on the certification platform.
- Add a "Show All" icon in the center news to display the news archive.
- Add a filter in the control panel for faculty members and departments to manage the council and the faculty and college staff, not the departments.
- Implement a software adjustment in the FAQs on the main interface by adding a + sign on the left and spacing it correctly, applying the same motion graphic for the sub-questions.
- Display the Arabic file on the English page if there is no achievements file in Arabic in the achievements pages of colleges, units, deanships, and centers to prevent the page from being empty.
- Add a filter for the achievements of colleges, deanships, units, and centers in the control panel to track the uploaded files for each entity.
- Show the permissions for regulations and systems in the control panel.
- Display departments based on the selected college in the filter to quickly reach the page to be edited.
- Change the term "Academic Program" to "Guiding Plan" instead.
- Allow control over the registration form with the ability to hide sections, add sections, and modify department plans.
- Add email and WhatsApp icons in the data of faculty members, departments, and staff of the deanship, center, and unit, alongside Facebook, Instagram, and Twitter icons.
- Resolve the issue of the College Council not appearing in the sidebar.
